

KP BUSINESS WIRELESS

KP Business Wireless offers fast, high-performance access to the internet using advanced LTE technology from the world's leading wireless networks. Choose from multiple bandwidth tiers to suit the needs of your business or home office.

Who do we serve?

- Hard to Reach Areas
- Remote Home Office
- Non-traditional Sites
- IoT Devices

Are you experiencing slow connection speeds? Do you have concerns about network security? If you answered yes to any of these questions, then the KP-BW plans can help you.

Availability & Coverage

Unlike internet solutions that rely on infrastructure, KP-BW uses advanced wireless technology to enable fast, reliable internet connectivity.

On The Move

KP-BW delivers reliable high speed internet no matter where you are! From a remote oil rig, to a pop up shop, construction site, or on the road in an RV, KP-BW is the perfect solution.

Use More Data For Less

KP-BW frees you from the confinements of traditional wireless internet plan. You can video conference, run you business applications without the hassle and uncertainty of overcharges.

Backup & Failover

Running a business today requires connected applications to keep you moving. Even a moment of downtime can be devastating. KP-BW is an effective way to ensure your business is always running at its peak.

MUNICIPALITIES

KP Business Wireless

Secure, Reliable Connection

Wireless video cameras deliver security through monitoring of remote sites and assets. KP-BW provides wireless service that provides reliability, coverage, and budget requirements.

Monitoring & Control

KP-BW supports day-to-day monitoring operations, while also providing the redundancy utility companies need to provide uninterrupted service. Collect operational data and manage equipment in remote locations.

Emergency Connectivity

Municipalities are expected to function through disruptions that may impact wired connections. KP-BW provides a backup connectivity solution to maintain their monitoring and control capabilities.

Fuel the Responsiveness of Your Utility Business

As you continue to leverage technology to fuel your organization's ability to respond to customer needs, look to KP-BW to deliver the network and security solutions you need to drive applications.
